SLIDABLE STRAPS
HAMMER-LOCK FEATURE

FIRST- Bend the plate to the desired position. The pivotal sections of the plate make it easy to create the perfect curve with no uneven or flat spots.

SECOND- Hammer/Flatten the Hammer-Lock tabs on a concrete surface to secure the shape of the plate. For even more strength and for sizes without Hammer-Lock, install self-tapping screws into the sides of Flex-C Plate.

FINALLY- Fasten the Flex-C Plate to the decking or joists.
