Securing Methods:
The shape of 3 5/8" and 6", 20 gauge Flex-CTrac can be secured by either flattening the Hammer-Lock tabs or inserting screws through the flanges of each link on both sides of the track. For 3 5/8" and 6", 18 and 16 gauge Flex-C Trac and 16 gauge Flex-C Angle, the shape must be secured by inserting screws through the flanges of each link on both sides of the track.
